Object of the Game

Card Game is played by two or more players and the player who has the highest number of cards wins the round.

Setup

1. Shuffle the decks and deal the cards. Each player gets 7 cards.

2. Two players in clockwise direction place 7 cards.

3. Place all cards on the DOS Center Flat. Each player places one card face down.

4. The player to the left of the DOS Center Flat is the dealer.

Let's Play

On your turn, you may either (1) MANEATER or (2) File your DOS Center Flat.

Maneater

You may take any card from your hand that matches the number on the DOS Center Flat.

Single Maneater

Play a single card, and then take the number of cards in one color that have the same number. If you have more than one card of the same number, you may take any one of them.

Double Maneater

Play two cards, and then take the number of cards in one color that have the same number as your total card play. If you have more than one card of the same number, you may take any one of them.

Color Maneater

Play any card that is not face down. If you have more than one card of the same number, you may take any one of them.

Note: In the case of Double Maneater, the DOS Center Flat is the same颜色 on the DOS Center Flat as the card you play.

DOS Ride

You may discard a card and place it face down onto the DOS Center Flat, but only if the number on the DOS Center Flat is a multiple of 3, and all cards of the same number are face down. If you have more than one card of the same number, you may take any one of them.

Winning the Game

The player who has the highest number of cards wins the round.

DOS Ride

You may discard a card and place it face down onto the DOS Center Flat, but only if the number on the DOS Center Flat is a multiple of 3, and all cards of the same number are face down. If you have more than one card of the same number, you may take any one of them.
